“MEET THE PROFS.”
6th June 2018 | 15:00 h
GEOMAR Westshore, „small practical room“

“Ocean Health and Recovery”: A Meeting with Invited Experts

“Working with and trying to incorporate a true diversity of people, disciplines, points of view, communities, institutions, etc takes time and hard work, but leads to more interesting opportunities and research”

Prof. Lora Fleming

“Collaborative science is the future but requires that you take the time to understand what drives your prospective collaborators”

Prof. Carlos Duarte

“Be bold, learn to take risks, find your gifts, and give them away.”

Prof. Larry Crowder

“Built up early on a diverse network of researchers who are fun to work with”

Dr. Thorsten Blencker

Prof. Lora Fleming
Lora Fleming is a physician, epidemiologist and scientist engaged with the environment and human health. She does research and training in the new metadiscipline of Oceans and Human Health.

Prof. Carlos Duarte
Curiosity drives me into constantly addressing questions that require inputs from research fields that I know nothing about, but I am always eager to learn!

Prof. Larry Crowder
My career has grown from disciplinary to interdisciplinary to transdisciplinary. First science and mathematics, to fisheries and oceanography, from endangered species to ecosystems.

Dr. Thorsten Blencker
I was always interested in ecosystem dynamics, but have moved from disciplinary to transdisciplinary science.

Contact: Dr. Enno Prigge, eprigge@geomar.de

During Meet the Prof. events you can meet – personally and informally – with top-level international scientists and experts visiting Kiel. Find out what they think are the top challenges in their field and what it takes to make a career within or outside of science. These are open events requiring no registration.
