“MEET THE PROF.”
Prof. Ben Marzeion
University of Bremen
07.05.2018 | 14:00 h
GEOMAR Westshore, large conference room

...a winding career path...

“Studying oceans in Austria and glaciers in Northern Germany: a winding career path may provide you with unusual perspectives that help you recognize opportunities for scientific progress.”

Prof. Ben Marzeion is a climate scientist at the University of Bremen who has worked extensively on the causes and effects of glacial melting. He is lead author of Chapter 4, “Sea Level Rise and Implications for Low-Lying Islands, Coasts and Communities” on the IPCC Special Report on the Ocean and Cryosphere in a Changing Climate.

Prof. Marzeion has published prolifically on model projections of sea level rise, both global and regional, under anthropogenic climate change scenarios. He has spoken on “Historical responsibilities and climate impacts of the Paris agreement” and several of his publications have been picked up by the press and even re-tweeted by President Obama!

Contact: Prof. Dr. Inga Koszalka, GEOMAR
ikoszalka@geomar.de

During Meet the Prof. events you can meet – personally and informally – with top-level international scientists and experts visiting Kiel. Find out what they think are the top challenges in their field and what it takes to make a career within or outside of science. These are open events requiring no registration.
